

## Fulfillment Roll Container

Designed with versatility and efficiency in mind, this 3-sided nestable container boasts a dynamic hand brake system for enhanced maneuverability, eliminating the need for traditional foot brakes. Its extreme-space efficient nestable design saves precious floor space, making it an ideal solution for smaller warehouses, backrooms, and tight storage areas. The Fulfillment Roll Container accommodates various tote/crate sizes and supports a payload capacity of approximately 200 kg / 440 pounds.

This game-changing design maximizes efficiency across ecommerce fulfillment, simplifying order picking, transportation, and delivery. With improved storage and ergonomic features, the Fulfillment Roll Container is a must-have for organizations seeking smarter and more sustainable intralogistics solutions.
