K.Hartwall SmartShelf®for Compactainer® and Foldia®

Need a shelf on your fleet of roll containers? Easy to adjust, K.Hartwall SmartShelf is attached to one side of the roll container and can be adjusted up and down to accommodate multiple package sorts and sizes.

It is easy to retrofit on your roll container and thanks to the stop buffer, it can't be removed or stolen once in place.

The K.Hartwall SmartShelf is available for various Compactainer and Foldia widths.
