Mobile Packet Sort Container

Designed primarily as a distribution roll container for moving of both bags and trays of letter mail, Mobile Packet Sort Container is also ideal for many other applications.

Ergonomic design, self adjusting and maintenance free dynamic brake and strong polymer base make it safe and operator friendly, while the robust construction ensure a long service life.

Key benefits

- Good nesting – no loose parts
- Reliable and secure braking system – requires no routine maintenance
- Robust construction
- Ergonomic design and quiet operation

Technical specifications

External dimensions	960 x 670 x 857 mm
Internal dimensions	766 x 609 x 801 mm
Unit tare weight	29 kg
Safe working load	200 kg
Loaded units / 40' trailer	42
Nested units / 40' trailer	175
Nesting increment	137 mm
Castor size	100 mm rubber wheel
Castor type	2 fixed and 2 swivel
Finish	Zinc plated and top coated
