

## Ro-Ro Adaptor Pallet

With the Ro-Ro Adaptor Pallet, you can effortlessly change from wheeled logistics to Euro pallets and vice versa. It allows you to roll in, stack and secure four dolly stacks.

The 4-way forklift entry makes for fast loading and unloading – each stack of dollies can be rolled off the pallet without lifting.

As with all K. Hartwall adaptor pallets, Ro-Ro Adaptor Pallet is stackable, lockable and durable for low total cost of ownership.

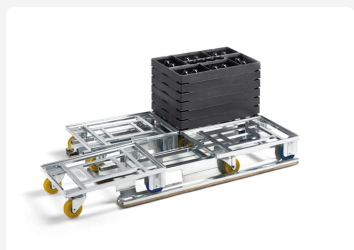

### Key benefits

- ✓ Saves space in transportation and warehousing
- ✓ Compatible with automated conveyor systems
- ✓ No lifting needed

### Technical specifications
